

Healthcare Communications

O'Neil specializes in all aspects of Managed Healthcare member communications including Commercial, Medicare, Part D, Medicaid and Individual Membership communications. We understand the latest government and CMS requirements and we have solutions in place to help you communicate to your membership and keep you in compliance.

Keeping our clients in compliance

O'Neil's cutting-edge technology give healthcare clients the ability to process, produce and archive millions of personalized member materials, on time and correctly, either electronically or on paper. Our clients stay in compliance and avoid HIPAA violations.

O'Neil's investment in new technology offers clients a whole new way of designing, creating, printing and distributing healthcare marketing communications. We now are able to produce full color, high volume, and variable content documents at the same price point as black imaging.

Healthcare data management infrastructure

We understand the importance of providing accurate, time sensitive materials to your members. We have built a front-end technology that is highly sophisticated, ensuring all member and provider data is processed accurately and quickly, then re-purposed into enriched content.

O'Neil has spent millions of dollars building a data and document management infrastructure specifically for the Managed Healthcare industry. Our data center and programming expertise is unsurpassed.
